MEMORANDUM FOR: Deputy Director for Administration
SUBJECT: Facilities Consolidation Study
REFERENCE: Your memo, dtd. 20 May 1976, Same Subject

I have looked over the attached Facilities Consolidation Study and agree that it falls short of what was expected. It is my view that it would be difficult to defend most of the installations based on the data presented. With respect to where we go from here, I have a couple of suggestions and will be glad to discuss them with you at your convenience.

JOHN D. IAMS
